

GHANE
PERSIAN CARPET

WOOL & SILK COLLECTION
CATALOGUE 2022-2023

Carpet-weaving is an integral part of Iranian culture and art. Among oriental carpets weaved by Asian countries, Iranian carpets stand out thanks to their variety and elegance of unique designs.

We started our activity in the Tehran market in 1980. Throughout these years, our goal has been to accelerate production and be up-to-date in designing based on customer needs. Today, after 43 years of experience, we have been able to provide an updated set of carpet-weaving machines and cooperate with a team of young designers to best meet your needs.

As we began exporting our products, we realized that the products produced in our factory did not merely meet all the needs of our customers. As a result, by establishing cooperation with other domestic producers, we decided to contribute to the growth of exports and meet market needs. We are now attempting to do so by creating 20 active export destinations and establishing sales representatives in other countries.

We are currently active in the design, production and supply of Iranian carpets, and by creating 10 collections of the most diverse designs, all of which are actively being produced, we are trying to win your satisfaction.

This collection of our products is woven from 100% natural wool and herbar silk and has very high stability and durability. All the designs of this series are taken from the motifs of authentic Iranian carpets, which have been redesigned based on modern fashion. The carpets of this collection are washed by hand after weaving, and in the next step, our carpets are shearing by hand. This collection can fulfill your desires in home design.

The Tree of Peace and Friendship

GHANEH CARPET is the pioneer of Iranian Carpet which is made from 100% natural yarn, wool, silk and cotton based on Iranian hand made carpet. It is inspired by the mineral stones and Iranian local plants for coloring this carpet. And we did our best to produce melodious and unique art by combining yarn and colors which is the symbol of monolith. We hope that all humans live in peace and brotherhood with each other like the used colors in this carpet.
