

WOOL & SILK

NEW COLLECTION

Ghane

PERSIAN KILIM & RUG
WWW.GhaneCarpet.Com

Carpet-weaving is an integral part of Iranian culture and art. Among oriental carpets weaved by Asian countries, Iranian carpets stand out thanks to their variety and elegance of unique designs.

We started our activity in the Tehran market in 1980. Throughout these years, our goal has been to accelerate production and be up to-date in designing based on customer needs. Today, after 44 years of experience, we have been able to provide an updated set of carpet-weaving machines and cooperate with a team of young designers to best meet your needs. As we began exporting our products, we realized that the products produced in our factory did not merely meet all the needs of our customers. As a result, by establishing cooperation with other domestic producers, we decided to contribute to the growth of exports and meet market needs. We are now attempting to do so by creating 20 active export destinations and establishing sales representatives in other countries. We are currently active in the design, production and supply of Iranian carpets, and by creating 10 collections of the most diverse designs, all of which are actively being produced, we are trying to win your satisfaction.

This collection of our products is woven from 100% natural wool and herbeal silk and has very high stability and durability. In this collection, we tried to create a new design by using Kilim weaving techniques. Redesigning the motifs of Iranian carpets based on the current needs of the fashion world to make it easier to use this carpet in modern homes is one of our goals in this collection. All our carpets are washed after the weaving stage, and in next step all carpet shearing, binding and serging by hand.

COLLECTION DETAILS

PILE YARN: IRANIAN HIGH QUALITY WOOL / HERBAL SILK

WARP YARN: IRANIAN WOOL (TRIAD WARP)

WEFT YARN: COTTON

SELVAGE: BY HAND

CARPET WASHING: BY HAND

POLISHING: BY HAND

Feature Of Wool Yarn...

Soft, comfortable and easy care

The secret to Iranian wool's softness is its exceptionally fine fibres.

Soft — Iran wool fibres are extremely fine, enabling them to bend far more than traditional, broader wool fibres. This makes Iran wool feel soft and gentle next to your skin.

Elastic

natural elasticity helps wool rug stretch with your body, yet return to their original shape.

Breathable

wool fibres can absorb large quantities of moisture vapour then move it away to evaporate into the air.

Fire resistant

wool is flame retardant, doesn't melt and stick to the skin, and even self-extinguishes when the source of flame is removed.

Odour resistant

in contrast to synthetics, Iran wool can absorb moisture vapour. Iranian wool even absorbs and locks away the odours from sweat, which are then released during washing.

Warm and cool

in contrast to synthetics, wool is an active fibre that reacts to changes in body temperature. So it helps you stay warm when the weather is cold, and cool when the weather is hot.

Anti-static

in contrast to synthetics, Iran wool can absorb moisture vapour. Iranian wool even absorbs and locks away the odours from sweat, which are then released during washing.

Biodegradable

When wool is disposed of, it will naturally decompose in soil in a matter of months to years, releasing valuable nutrients back into the earth.

Stain resistant

wool fibres have a natural protective outer layer that prevents stains from being absorbed. Because wool tends not to generate static, it attracts less dust and lint.

Anti-wrinkle

at a microscopic level, each wool fibre is like a coiled spring that returns to its natural shape after being bent. This gives wool rug a natural wrinkle resistance.

Safe and natural

Iranian wool is a natural and renewable fibre that is safe for everyone to use.
